Certified ScrumMaster Class

Some of the items we'll explore…

This two-day Certification class will provide participants with detailed insight into the workings of Scrum and the expectations of the ScrumMaster.

Even projects that appear to have solid, well-defined project plans encounter some degree of change and waste. Shifting market conditions, budget cuts, staff restructuring, or any number of influences will disrupt the best plan while contributing to customer dissatisfaction and staff discouragement. Moreover, projects that *begin* with changing or unclear requirements make it difficult to even establish project expectations.

Scrum is the alternative agile project management framework that allows teams to deliver usable software periodically throughout the life of the project, absorbing change and new requirements as the project proceeds.

Beginning with the history of agile development and moving through the disciplines promoted by Scrum, you will gain a comprehensive understanding of the Scrum methodology while specifically reviewing the behaviors expected of a ScrumMaster. This class is suitable for those practicing or looking to practice the art of the ScrumMaster, but is highly valuable for anyone involved in Scrum (Managers, Team Members, Product Managers, etc.).

Principles of Agile Thinking:
- The Agile Manifesto
- Defined vs. Empirical Methods

The Scrum Framework and Scrum Fundamentals
- What is Scrum and Why Does it Work?
- Iterative Development, Self Managed Teams, and Visibility
- Optimizing Project and Product Value (ROI)

The Three Scrum Roles
- ScrumMaster
- Product Owner
- Team Member

Implementation Considerations
- A Scrum Launch Checklist
- Integrity in Application Development

The Scrum Simulation Exercise

Scrum Team Behaviors and Variations
- Getting to "Done"
- Team Building
- Scaling and Multi-team Coordination

Agile Planning and Estimating
- Relative Priorities
- User Stories and Story Point Estimating
- Velocity and Projecting Delivery Dates & Budgets

About our instructors and your class experience…

If you're going to spend the time and money to get certified, make sure you get a trainer you can count on. Our instructors have extensive experience in project management, executive leadership, and organizational training. At Winnow Management, we work hard to deliver two distinguishing aspects of obtaining your CSM: the highest quality classroom experience, and the most qualified instructors.

Get personalized attention while saving time and money by holding classes privately at your facility!
