

Agile Training

Aligned with The Manifesto for Agile Software Development, we believe in these core foundational values, reworded for our purposes::

Individuals and interactions over processes and tools
Working product and services over comprehensive documentation
Customer collaboration over contract negotiation
Responding to change over following a plan

With this in mind, we offer a variety of training options to suit your needs.

- ~ Certified ScrumMaster
- ~ Certified Scrum Product Owner
- ~ Advanced Certified ScrumMaster
- ~ Advanced Scrum Product Owner
- ~ Agile Coaching Skills: Certified Facilitator

All of the above certifications can be delivered privately to your team or organization, either online or in person.

We also regularly run these classes publicly with open seating registrations.

Scaled Agile offers a wide range of classes, beginning with Leading SAFe. While we can meet your SAFe training needs, we currently only offer SAFe classes as private engagements, either online or in person.

Our sister company, Big Orange Square, offers Industrial Agile CSM and CSPO certifications over a 3-day car-building workshop at our Erie, CO garage!

Agile Coaching & Consulting

Organizations seeking to increase their adoption of an agile mindset and associated practices have varying degrees of need. Some wish to educate their teams, others could benefit from a periodic evaluation of their progress, and still others are looking for assistance in launching Agile Teams while getting their people aligned with Agile principles. In all cases they are interested in building stronger teams in an improved product development environment.

Regardless of *your* current need, we can help.

Regarding our Coaches, all Certified by the Scrum Alliance...

We are all knowledgeable business people from varied backgrounds, having worked in organizations such as IBM, AT&T, Johns Hopkins, Sony, Hilton, and the US Department of Defense. As MBAs, PMPs, and experienced business owners we understand the organizational and cultural impacts of moving to an agile environment. Our backgrounds can help you in very practical ways as you navigate these challenges. Some excerpts from satisfied customers of how we assisted:

- ~ "...leadership that proved critical to overcoming objections to adoption."
- ~ "...a superior work effort in our European development office."
- ~ "...real life examples using the Scrum concepts were very helpful."
- ~ "...personal experiences helped us understand the finer points of Scrum."
- ~ "...I would recommend him and his services any time."

Need a custom training session? We also create specialized workshops to meet your needs!

Coaching Activity Offerings...

Coaching activities as part of a longer-term Agile implementation plan:

- ~ Assessment of current conditions
- ~ Development of a transformation strategy
- ~ Training and team building
- ~ Launching teams under the new approach
- ~ Evaluation of longer-term impacts

Shorter-term coaching activities:

- ~ Executive overviews
- ~ Product Backlog Refinement
- ~ Sprint Planning techniques
- ~ An agile assessment
- ~ General problem solving
